REDBANKHSINFO

Red Bank High School offers individualized, engaging instruction through the BlueCross Tech Academy while still offering high school experiences. With the ever-growing demand for engineering and digital careers, students gain an advantage by receiving a state-of-the-art education in the technology academy.

Students may also choose to focus on Marketing with the Institute which offers students firsthand experience how to run aspects of business from managing social media marketing campaigns to day-to-day logistics decisions and activities. Students will run campaigns for RBHS sports and clubs, work in production for the school's ROAR Store and pitch ideas in a Shark Tank style competition.

Students will leave this institute prepared to pursue their goals in college and the business world.

FUTURE READY INSTITUTES:

- BlueCross Technology Academy

FRI PARTNERS: Northside, BlueCross, United Way, Be the Change, The City of Red Bank, and (be) Caffeinated
